

ACCESSIBILITY SELF-DECLARATION OF OUR WEBSITE

At **Ar.pa Srl**, we are particularly attentive and sensitive to regulatory changes, especially when they directly affect our customers. With this in mind, we decided to carry out an accessibility audit of our website **<https://www.arpalieviti.it/>**, in order to ensure every visitor has the most inclusive and positive experience possible.

This audit, conducted on **June 24, 2025**, showed that our website is already largely accessible and usable, covering most of the issues outlined in the international Web Content Accessibility Guidelines (WCAG), in one of their most recent versions (WCAG 2.1 AA).

A more detailed report is available at <https://www.arpalieviti.it/eea/report.html>

While some areas for improvement were identified, we remain constantly attentive and ready to embrace any further regulatory or technical updates, in order to ensure ever-higher levels of accessibility.

FINAL CONSIDERATIONS

Although there is no legal obligation for us to conduct an accessibility audit given the nature of our website, we have voluntarily chosen to do so in order to emphasize the importance we place on inclusion and digital accessibility. This commitment reflects our desire to provide an optimal experience for every visitor to our website.
